

Patricia May Rosen

Educator and Consultant

Triggering change in education through people and the technologies that help us think together.

Please call me Tracy, most everyone else does!

Beliefs about Learning

...on relationship

"In the end, children succeed because somewhere along the way, a parent or teacher instills in them the belief that they can. That they're able to. That they're worth it." ~ Barack Obama

...on technology

"Students must learn with technology the way they live with technology."
~ Dennis Harter and Justin Medved,
